

The 16th IEEE Asia-Pacific (AP) Young Researcher Award

2021 Best Young Researcher Award

- Ju Ren (Tsinghua University, China)
for contributions in internet of things and edge computing

2021 Outstanding Young Researcher Awards (in alphabet order of last name)

- Wenchi Cheng (Xidian University, China) for contributions to radio resource management of wireless networks
- Chongwen Huang (Zhejiang University, China) for contributions to reconfigurable intelligent surface empowered wireless
- Yuanming Shi (ShanghaiTech University, China) for contributions to machine learning in wireless networks
- Fengxiao Tang (Central South University, China) for contributions to intelligent routing and traffic control of wireless networks
- Jie Tang (South China University of Technology, China) for contributions to interference management in wireless networks
- Yongpeng Wu (Shanghai Jiao Tong University, China) for contributions to multiuser MIMO communications
