The 17th IEEE Asia-Pacific (AP) Young Researcher Award

2022 Best Young Researcher Award
- Qingqing Wu (Shanghai Jiao Tong University, Shanghai, China) for contributions to pioneering intelligent reflecting surface empowered 6G communications

2022 Outstanding Young Researcher Awards (in alphabet order of last name)
- Boya Di (Peking University, Beijing, China) for contributions to aerial access networks and metasurface aided systems
- Haneul Ko (Korea University, Seoul, Korea) for contributions to research on offloading and IoT-based systems
- Cunhua Pan (Southeast University, Nanjing, China) for contributions to reconfigurable intelligent surface-aided wireless systems
- Wei Quan (Beijing Jiaotong University, Beijing, China) for contributions to reliable transmission and networking in mobile systems
- Tiago Koketsu Rodrigues (Tohoku University, Sendai, Japan) for contributions to research on edge computing and 6G networks
- Fuhui Zhou (Nanjing University of Aeronautics and Astronautics, Nanjing, China) for contributions to intelligent communications and resource optimization
